Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance:
 - With regard to independent claim 1, as the closest reference of record, Woo (EP 1 164 585 A2) discloses a changer for optical recording media including a movable drawer supporting a number of trays arranged one above the other, each tray being capable of holding an optical recording medium, the trays being mounted such that they are pivotable about a horizontal axis; **but fails to show** that the trays are pivoted about the horizontal axis by a rotating movement of a rotation cam connected to the drawer.
 - Applicant asserts: "The design according to the invention allows to reduce the distance between the trays, resulting in a more compact design;" and "the point of contact for the pivoting operation does not need to be close to the axis of rotation, which reduces the forces acting on this point of contact and makes the changer more reliable" (Specification, pp. 2-3).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
